Pop-up stores have limitations in terms of both time and space. While attracting locals to come for visiting and taking photos, it also loses some attention.

WeChat Consumer's Feedback

Consumers care about product quality and color most.

Premiumness of social content helps to enhance the brand "luxury tech" image in consumers eyes.

Purchase

Mania is my favorite~ Going to get it in a few days😊

When will the Gemini II be released😊

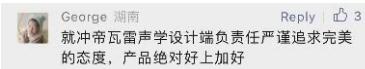

Buy it!!!

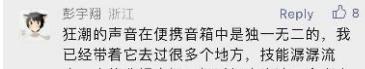

It's so cool!!

Quality

In terms of acoustic design, Devialet has a rigorous and perfection-seeking attitude. I believe their products are particularly excellent!

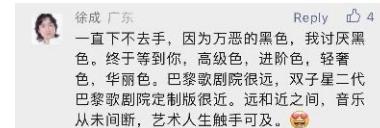

The Mania's sound is unique among portable stereos. I have taken it to many places, and its sound quality is excellent. I won't be buying any other speakers in the near future.

👍 Devialet is a brand that specializes in acoustic products. The products will surely sell well!

Color

I dislike black so haven't bought it all this time. Finally, I waited for the premium and luxurious colors! I am far from the Paris Opera, but close to Operade Paris. Between far and near, the music never stops. The artistic life is within reach. 😊

Like the white.

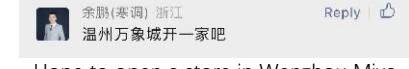

The blue color is classy.

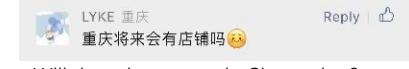

Store

So fancy! I'm going to the store!

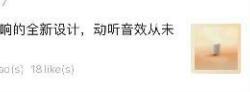

Hope to open a store in Wenzhou Mixc.

Will there be a store in Chongqing?
